

# ACHIEVEMENT ASSEMBLY

Friday 14<sup>th</sup> October 2022

~~“I know that I have had  
a good day when I finish  
all of the work that my  
teacher sets me.”~~

# BEING AN ACTIVE LEARNER

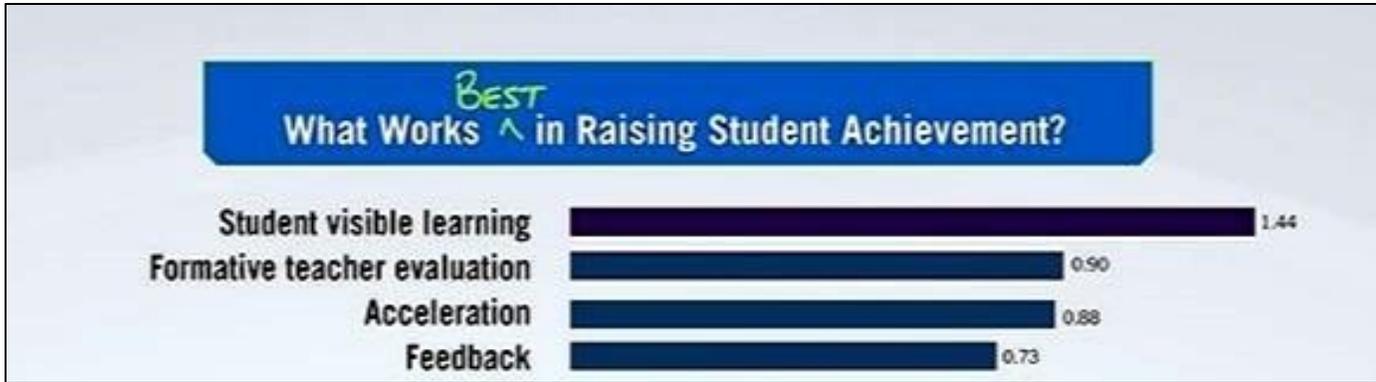

-Ask yourself three questions:

1. What am I learning today?
2. What have I achieved so far?
3. What do I still need to do?

Parents, you can support by asking these questions at home!

## Bunting's problem

Friday 30<sup>th</sup> September Name lexie

L.O. Test suitability of materials Y1

I will know about properties of different materials.  
I will test different materials.  
I will explain what I found out.

### Bunting's problem

Poor Bunting, can you help him? He has become wet while sailing across the ocean to find the toys. He needs a waterproof coat! How can we make it?

A material that is waterproof does not let liquid in. It keeps you dry in the rain.

A materials that is absorbent soaks the liquid up.

We are testing these materials -

				
---	---	---	---	---

These are my predictions -

Material	My prediction - circle
Plastic	Waterproof Absorbent
Newspaper	Waterproof Absorbent
Rubber	Waterproof Absorbent
Metal	Waterproof Absorbent
Fabric	Waterproof Absorbent

How will we test each material fairly?

We will make sure we make them  
the same amount off water

What happened?

Material	Results
Plastic	Waterproof ✓
Newspaper	Absorbent ✓
Rubber	Waterproof ✓
Metal	Waterproof ✓
Fabric	Absorbent ✓

Which material would make the best coat? Rubber ✓

Why? cus it is <sup>comfortable</sup> for his body

Is every waterproof material suitable for Bunting's coat? No

Why not? metal is too hard on his body
